---

Attached is the City of Wilmington stormwater permit revision for modifications to the Aspen Heights project. This permit revision covers both the changes outlined in the construction release revision approved on 1/15/2016 and the Emerson driveway and sidewalk changes submitted by email on 2/4/16. The Emerson field changes were verbally approved by construction management, this permit revision simply formalizes those changes. The permit will be uploaded to protrak, but hard copies will not be distributed unless requested. Please call or email if there are any questions. Thank you.
