To Whom It May Concern:

Attached for your review is a site map of Birchwood Park Apartments. Highlighted is the location and standard for installation of exit only barrier gate. We propose to place two (2) exit only, 14' barrier gates, with battery back-up, a siren operated system, and a Knox box. Attached are the specs. There has been an increase in criminal activity in the area. Vehicles frequently use that entrance to gain access to the property and conduct illegal practices. We feel that installing an exit only gate would be a proactive approach to deter this negative element from entering the community. I look forward to your response. Thank you.

Sincerely,

Dominic Becker

1601 Barrier Gate

- Automatic p.a.m.s. sequencing with slide and swing gates
- Folding arm kits available for low headroom applications
- Barrier arms available in aluminum/wood or plastic with optional foam padding

The 1601 operator is designed for single lane (14 ft. max) vehicular traffic control in high traffic commercial and industrial applications. The 1601 operator is designed so that it can be mounted on either the left or right hand side of the roadway. The operator can be equipped with a DC convenience open package (optional) that will automatically raise the arm in the event of a power outage.

Arm Options

Arm Type	Max. Arm Length (Ft.)	Style	Folding Option
Plastic	12	2.5x2.5 in. Square	Yes
Wood	14	.75x.75 in. Rectangular	Yes
Aluminium	14	3 in. Round	Yes
Foam Padding available for Aluminium / Wood
