■ **AMBERLEIGH SHORES PHASE 2 [TRC Plan Review#2]**

**NCDOT:**

- Thank you for providing the Traffic Control Plan.

**TECHNICAL STANDARDS- ACCESS (driveway, sidewalk, and sight distance):**

1. The use of Speed Humps on City Streets must be approved prior to installation. Please provide documentation for the approval of the 4 speed humps on Avery Drive. If Avery Drive is a private street, not open for public maintenance, please show the street as "Private".
2. The proposed 14' travel lanes at the entrance gate shall not interfere with Fire and Rescue Vehicle Access. Please confirm travel lane widths with WFD.
3. Avery Drive appears to have reduced Street Corner Radius. Provide standard street corner radius with the subdivision streets. R35' is the minimum. A Variance may be requested for the street corner radius.

**TECHNICAL STANDARDS- PARKING:**

4. Please provide street names on the landscape plans. Current sheets use 'Road A' and 'Road B'.

Please let me know if you have any questions or if I can be of further assistance as this development moves through the review process.
