Subject: Eng Review - Hawthorne Commons Fitness

Engineering has reviewed the plans for the Hawthorne Commons Fitness addition and have the following comments:

1. There is a minor math error on the application. In reference to the application: IV (8) Existing Impervious to remain + IV (9) Total newly constructed impervious surface must equal IV (10) Total onsite impervious surface. At first I thought the firepit/pavers were included in the existing figures, but that math doesn't quite work out either. Please reconcile.
2. Please forward the NCDENR state Stormwater revision once received.

The site plan itself looks fine. Please resubmit whatever is revised (via email only) so we can verify prior to release. Thank you.
