Dan – The 3/8 submittal looks fine. Engineering has no further comments on this project.

Regarding the variance – Engineering is not opposed to a street style entrance, but the issue as I understand, it is more with the alignment of the roadway/drive aisle beyond the entrance than the type of entrance. Engineering will defer to traffic/transportation – this issue should be worked out through the TRC process rather than a variance.

Please call or email if there are any questions. Thank you.

Robert Gordon, PE
Plan Review Engineer
