

Engineering has reviewed the TRC submittal for the Needham Animal Hospital project and has the following comments:

1. This project proposes over 10,000 sf of newly constructed impervious area. Therefore, a full stormwater permit modification fee of \$500 is required. Engineering has already received a check for \$200, please submit an additional check to Engineering for \$300 to cover the difference.
2. Please submit a copy of the State permit once received.
3. Additional comments will be made once the full engineering submittal is reviewed. Please note our review times are approximately 30-45 days right now. Please factor this into your submittal schedule.
