- Can you please explain why tree adjacent to the raised walkway (C-2.7) needs to be removed? Can we leave it and if it ends up needing to come out handle with a field mod? Since that area is difficult to get through I assume there will need to be some flexibility once they get back there and start moving.
- What happened to tree being removed on C-3.3/C-3.4? Nothing shown in same location on C-2.8/C-2.9)
- Foundation plantings are required on the north side of building for the portion of the building that is adjacent to the parking area. You can count any excess area located within the landscape island.
