TRC Planning Review 8/23/19

Brian Chambers, brian.chambers@wilmingtonnc.gov

- Please add residential density calculation to plan set (site data table). Maximum is 8 units/acre within MX-zoned area.
- Be sure to include building elevations in final plan set, with signature blocks. Only need to provide sample set to show typical building elevation for each building type. Just a reminder.
- Identify common areas on MX open space map (10%).
- Provide tree permit fee (\$100.00)
