TRC Planning Review 1/23/20

Brian Chambers, 910.342.2782, brian.chambers@wilmingtonnc.gov

- A landscape plan is required.
- Show tree mitigation calculation on landscape plan. Tree credits may be used to satisfy mitigation requirements.

Note: Tree credits may only be used for trees that are not otherwise required to be preserved (i.e. protected trees, trees in required buffer). A survey of these trees would need to be provided to show which trees would be used for credits. Please give me a call if you have questions or would like to discuss.
