**Subject: Stormwater Management Permit No. 2015037R1 & R2
Echo West/Villas at Echo Farms
High Density permit revision**

Dear Ms Beaman:

The City of Wilmington Engineering Division has received a request for a revision to the Stormwater Management Permit for Echo West project. Having reviewed the application and all supporting materials, the City of Wilmington has determined that the proposed revision meets the requirements of the City of Wilmington's Comprehensive Stormwater Ordinance.

The revisions include:

R1 - ditch modifications to sheet 3.4

R2 - tree spacing adjustments and drainage ditch/easement modification

No/negligible impervious area adjustments are associated with either of these revisions

Please be aware all terms and conditions of the permit 10/20/2015 remain in full force and effect. Any additional changes to the approved plans must be approved by this office prior to construction. The issuance of the plan revision does not preclude the permittee from complying with all other applicable statutes, rules, regulations or ordinances which may have jurisdiction over the proposed activity, and obtaining a permit or approval prior to construction.

The revised stamped, approved stormwater management drawings will be released for construction by the Wilmington Planning Division under separate cover. Please replace any old plan sheets from the approved set with the new, revised sheet. An electronic copy of the approved drawing set, permit, application and supplementary documents will be maintained by the Wilmington Engineering Division. If you have any questions, or need additional information, please contact Robert Gordon at (910) 341-5856 or rob.gordon@wilmingtonnc.gov

Sincerely,

for Sterling Cheatham, City Manager
City of Wilmington
