RE: The Pointe at Barclay Phase I Building 4 located at 1407 Barclay Pointe Boulevard

Please make note of the conditions for the release as they appear on the attached release letter. These conditions must be followed and met in order for the construction to be approved. ***Prior to beginning any construction or grading on the site, you must have a pre-construction meeting between City staff and the project's representatives. Any violation of this condition will result in an immediate stop work order and other civil penalties. Please contact our zoning office at 254-0900 to schedule the preconstruction meeting.***

All construction on the site must be in accordance with the City of Wilmington standards and the approved construction plans stamped by the City. All trees and areas designated to be saved or protected must be properly barricaded and/or marked throughout construction. In addition please be aware that to obtain a final zoning inspection for this construction project, the appropriate departments within the City of Wilmington must perform and approve final inspections.

To arrange for inspections please contact the assigned Zoning Enforcement Officer, at 254-0900. Staff will coordinate the inspections and provide a punch-list to the Developer within 5 working days. Upon correction of the punch-list items, a final inspection will be performed. ***NOTE: Zoning will not issue final approval until all requirements of the City of Wilmington are fulfilled.***

Please also be advised that any party aggrieved by the issuance of this approval may file a notice of appeal to the City Clerk within 30 days of receipt of active or constructive notice of this decision. It shall be presumed that all persons with standing to appeal have constructive notice of the decision from the date a sign containing the words "Zoning Decision" or "Subdivision Decision" in letters at least six inches high and identifying the means to contact an official for information about the decision is prominently posted on the property that is the subject of the decision, provided the sign remains on the property for at least 10 days. Posting of signs is not the only form of constructive notice. Any such posting shall be the responsibility of the landowner or applicant. Verification of the posting shall be provided to the official who made the decision. Absent an ordinance provision to the contrary, posting of signs shall not be required.

The City thanks you for your investment in our community and we look forward to working with you towards the construction of a quality development project.

Sincerely,

Permit for a Land Disturbing Activity

New Hanover County
Department of Engineering
230 Government Center Drive - Suite 160
Wilmington, North Carolina 28403
(910) 798-7139

As authorized by the New Hanover County Erosion and Sedimentation Control Ordinance

This permit issued to Barclay Commons Retail, LLC authorizes the development of 71.9 acres of land at 3401 & 3501 Independence Boulevard for Barclay West Phase I and Tract B in New Hanover County. This permit issued on June 13, 2014 is subject to compliance with the application and site drawings, all applicable regulations and special conditions and notes set forth below. Any plan modifications must be approved by this office prior to field changes.

It is understood by the applicant that a representative of New Hanover County's Engineering Department may inspect the site at any time following the issuance of this Permit. A copy of the approved Soil Erosion Control Plan, this permit, a rain gauge and copies of all the Combined Self-Monitoring and Self Inspection Reports must be available at all times at the site.

Failure to execute the provisions of this permit and the approved Soil Erosion Plan, or any other provisions of the New Hanover County Soil Erosion and Sedimentation Control Ordinance, shall result in immediate legal action by the County to the limits prescribed by the Ordinance. If the measures outlined on the approved Soil Erosion Control Plan and this Permit prove insufficient, additional Erosion Control measures can and will be required which in turn will be considered provisions of this Permit. This Permit does not preclude any other permits or approvals necessary for beginning or completing this development. Approval of an erosion control plan is conditioned on the applicant's compliance with Federal and State laws, regulations and rules. It is the Permittee's responsibility to obtain all necessary permits and approvals.

SPECIAL CONDITIONS

(THESE CONDITIONS MUST BE FOLLOWED IN ADDITION TO THE PLANS AND SPECIFICATIONS)

*All the soil erosion control measures will be installed as the site is cleared and maintained throughout construction. The original permit approved 6/13/14 for 19.7 acres for SS infrastructure included a construction entrance, silt fences, temporary stream crossings and all disturbances in any ditch or stream must be immediately lined with excelsior mat prior to any rain event.

**Revision #1 approved 11/24/14 for stockpiles included 4 minimum sloped 2:1 stabilized stockpiles with additional silt fence.

**Revision #2 approved 6/9/15 for the addition of 26.78 acres for the pond, swales and ditch work included a construction entrance, silt fences, 2 temporary stream crossings, 4 rock pipe inlet protectors, outlet protection, a 2:1 sloped stabilized stockpile with silt fence, a ditch plug with immediate ditch filling prior to any rain event and immediate construction and stabilization of the stormwater pond with a 6 inch Faircloth Skimmer and a 5.8-inch orifice with a level spreader. NOTE: All work in ditches adjacent to Independence Blvd. and South Seventeenth Street must be completed and a liner must be installed PRIOR to any rain event. No activity is to take place in the R/W ditch along South Seventeenth Street between George Anderson Drive and the permanent stream crossing.

**Revision #3 approved 2/18/15 for an additional 2:1 sloped stabilized stockpile with silt fence.

**Revision #4 approved 9/28/15 for the addition of 21.7 acres on Tract B includes a construction entrance, silt fences, 6 temporary diversions sloped 2:1 with diversions 1-4 being 1.5 feet deep with 1.5 foot bottoms and diversions 5 & 6 (if required*) will be 2.5 feet deep with 5 foot bottoms, 2 sediment basins with 3 coir baffles and Faircloth Skimmers thru earthen dams. Skimmer in Basin #1 will be a 4 inch Faircloth Skimmer with a 3.6-inch orifice and the Skimmer in Basin #2 will be a 3 inch Faircloth Skimmer with a 3-inch orifice. The relocated stockpile will be sloped min. 2:1 and will be surrounded with silt fence. *Note: Diversion 5 & 6 shall be constructed in the event the pre-existing ditches onsite have been filled. Otherwise the pre-existing ditches will be used to convey water to the 2 Sediment Basins.

**Revision #5 approved 11/5/15 includes 3.01 acres for expansion of the min. 2:1 stabilized stockpile with additional silt fence.

** Revision #6 approved 11/13/15 for The Point @ Barclay Phase I on Tract B includes 3 construction entrances, silt fences, inlet and outlet protection. NOTE: No activity is allowed without The City of Wilmington approval. Revision #7 approved 6/30/16 includes installation of the 2- 48 inch pipes adjacent to South 17th Street with silt fence and an energy dissipater.

**Revision #8 changes the name of the property from Cameron Properties Limited Partnership and Cameron Properties Land Company, LLC to Barclay Commons Retail, LLC and changes the financially responsible party.

**Revision #9 approved 12/6/16 for The Point @ Barclay Phase II on Tract B includes 2 construction entrances, silt fences and inlet protection. This revision includes 2.75 acres that were previously permitted.

**Revision #10 approved 2/14/17 includes a 3:1 sloped diversion swale 6 feet deep with a 3 foot bottom, 18 inch pipe and a rip rap energy dissipater at the end of the diversion swale.

****Revision #11 approved 8/8/17 includes Phase I Building #4 with a construction entrance, silt fence and inlet protection.**

*Tree Removal Permits must be acquired from the City of Wilmington and/or New Hanover County prior to issuance of this permit and clearing the site.

*Silt fence stakes must be metal and will be placed **six feet apart without wire reinforcement or eight feet apart with wire reinforcement**. Silt fence is not allowed as inlet protection.

*This permit does not preclude any permits or approvals which may be necessary such as City of Wilmington or New Hanover County Stormwater, NCDENR Water Quality, C.A.M.A., and the US Army Corps. of Engineers, DEM Solid Waste or any other agencies.

*No sediment shall leave the site.

*If plan revisions are necessary you must submit a copy to this office for approval prior to any field changes.

*If soil is removed from the site, it must be taken to an approved or permitted site to be identified to this office prior to removal from the site.

*All City and/or County and State drainage and stormwater requirements will be adhered to.

*If these measures fail to adequately control erosion, more restrictive measures will be required.

*If any phase of grading ceases for more than 15 working days, the site will be temporarily stabilized.

*All slopes must be stabilized within 21 calendar days of any phase of activity.

The approval of an erosion control plan is conditioned on the applicant's compliance with Federal and State Water Quality laws, regulations and rules.

***Note the required rates for seed, lime, fertilizer and mulch in your seeding specifications.**

***Note the NPDES information from the State for sites disturbing 1 acre or more and the reporting requirements.** All NEW projects permitted after August 3, 2011 must include the following surface water withdrawal locations and stabilization requirement designations on the plan in order to qualify for coverage under the most recent NPDES Construction General Permit. All settling basins must have outlet structures that withdraw water from the surface, with the exception of basins or traps that have a drainage area of less than 1

acre. The NPDES permit requires ground cover within 14 calendar days on disturbed flat areas and ground cover within 7 calendar days on all areas within HQW Zones, perimeter dikes, swales, ditches, perimeter slopes and all slopes steeper than 3:1. Exceptions include slopes that are 10 feet or less in length and not steeper than 2:1 which must be stabilized within 14 calendar days and slopes greater than 50 feet which must be stabilized within 7 calendar days. This permit also includes other new requirements which are listed in the text of the NPDES Stormwater Discharge Permit for Construction Activities. Inspections of all erosion control measures and reports are required every 7 days and within 24 hours of every 12- inch rain event in a 24-hour period.

***Note the Land Resources Self Inspection Program Requirements.** This program is separate from the NPDES reporting and requires inspection and documentation after each phase of construction. These phases include: Installation of perimeter erosion control measures, Clearing and Grubbing of existing ground cover, Completion of any phase of grading of slopes or fills, Installation of storm drainage facilities, Completion of construction or development, Establishment of permanent ground cover sufficient to restrain erosion and any Deviation from the approved plan.

Enclosed is a Combined Self-Monitoring and Self-Inspection Form that meets the requirements of both the NPDES Stormwater Permit for Construction Activities, NCG 010000 reporting and the Land Resources Self Inspection Program that satisfies the requirements of the Sedimentation Pollution Control Act. This report is the responsibility of the property owner. It requires a rain gauge onsite and inspections and reporting every 7 calendar days and within 24 hours of every ½ inch rain per 24-hour period and at specific phases of construction. Additional copies of this Combined Construction Inspection Report can be found at <http://portal.ncdenr.org/web/lr/erosion> . Reports must be available onsite at all times. If you have questions, please contact New Hanover County Engineering (910) 798-7139 or the Land Quality Section at the NCDENR Regional office at (910) 796-7215.

***A pre-construction meeting is required prior to any activity on site. Please contact Beth E. Wetherill at (910) 798-7139 to set up this meeting.**

This Permit will expire one year from date of issue if no construction activity begins on site. This permit may not be amended or transferred to another party without approval of this office.
